COMMUNITY IMPACT STATISTICS

OUR NEW BUILDING IS OPEN!

Temple Community Clinic extends a heartfelt appreciation to our community for their kind-hearted support. Because of your generosity, in January 2024 we moved into our new building at the corner of South 31st Street and Avenue J. We understand the value of health and the impact that lack of care can have on a patient and the community. Thanks to you, our new 13,500 square foot clinic features 7 exam rooms, 2 procedure rooms, private consultation rooms, a conference center and offices for medical staff, social workers and mental health.

While the building is complete, we still need support to meet our fundraising goal. This allows us to put our focus where it's needed most, patient care. If you would like more information on how you can make an impact, please contact the clinic.

WHAT PATIENTS ARE SAYING ABOUT OUR MOVE

"I love that it's bigger, you can see more people, help them stay out of the ER."

"It is closer to my house and I may even be able to walk there to get my steps in."

"It's cool you are going to show people how to use fresh food to cook. I am excited to maybe take a class because I was never taught."
